

MAXI BOX S, L & XL

Professional Repairs. No Waiting. No Worries.

- Repair pipes fast - no cutting, no welding
- Three box sizes cover the most common pipe dimensions
- All parts - available separately for easy reordering
- Built strong with stainless steel, designed for quick installation

Maxi Box: Fix it fast. Keep it stocked.

MAXI MAXI

SUITABLE FOR:

Steel pipe, Cast iron pipe, Ductile cast iron pipe, Fiber Cement pipe

COLD WATER AREA:

PE-Pipe, PVC-Pipe

BOLTS:

Stainless steel 1.4301 (V2A) similar to AISI 304; M14.

SPANNER PLATE:

Stainless steel 1.4301 (V2A) similar to AISI 304, vulcanized into the seal.

SEAL:

The Seal is available with EPDM or NBR seal. It features a honeycombed structure and beveled ends.

PRESSURE STAGES:

The permissible pressure stages vary depending on number of elements, the type of pipe, pipe outer diameter and type of damage.

DO YOU KNOW THE **EASY GRIP** FUNCTION?

ALL PRODUCTS WITH THE EASY SYMBOL ARE EQUIPPED WITH **EASY GRIP** FUNCTION.

The **Easy Grip** function is an „installation aid“ that makes the installation of stainless steel clamps significantly easier, and installation times are significantly shorter. The result are savings in time, costs and energy!

IT WORKS AS FOLLOWS:

Side supports in all Middle and Maxi clamps are fitted with hooks.

These hooks are designed for attaching a typical ring wrench or open-end wrench.

The **Easy Grip** function follows the lever principle: Press the lower edge of the clamp and the combination wrench together with one hand. The mobile holder can now comfortably be placed on the upper edge of the stainless steel clamp using the other hand. Tighten nuts and done!

UNIFIX-MAXI BOX S

Our economic repair box. **Nine** different sizes of Unifix Maxi stainless steel repair clamps for all types of pipe from **60 mm to 170 mm** outside-Ø – ALL IN ONE BOX!

ABOUT OUR UNIFIX MAXI BOX S

BOX DIMENSIONS:

600 x 400 x 230 mm, Weight – 22 kg

CAUTION:

The nine stainless steel clamps are not intended to be combined.

Content Maxi Box S

Stainless steel clamps Unifix Maxi

1 piece UNIFIX MAXI 60 – 67 mm

1 piece UNIFIX MAXI 70 – 77 mm

1 piece UNIFIX MAXI 82 – 90 mm

1 piece UNIFIX MAXI 90 – 98 mm

1 piece UNIFIX MAXI 98 – 108 mm

1 piece UNIFIX MAXI 108 – 118 mm

1 piece UNIFIX MAXI 118 – 128 mm

1 piece UNIFIX MAXI 132 – 144 mm

1 piece UNIFIX MAXI 159 – 170 mm

Pipe outer-Ø (mm-)	Pressure level (bar-) Water	Pressure level (bar-) Gas
48 – 95	16	5
88 – 170	16	4

Item No.

50.03.20.1 (with NBR seal)

51.03.20.1 (with EPDM seal)

UNIFIX-MAXI BOX L

Our most flexible repair box. **Twenty** different sizes of Gebo Unifix stainless steel clamps for all types of pipe from **48 mm to 359 mm** outside-Ø – ALL IN ONE BOX!

ABOUT OUR UNIFIX MAXI BOX L

BOX DIMENSIONS:

800 x 600 x 600 mm

TIP:

Each sealing clamp can be used individually or connected to another sealing clamp, creating one, two or three part sealin clamps. The concept is to combine the various sealing clamps to allow the desired outside pipe diameter to be sealed. The Installation length of the clamps is generally 300 mm.

Content Maxi Box L

Stainless steel clamps Unifix Maxi

3 pieces UNIFIX MAXI 48 – 55 mm (section 1)

3 pieces UNIFIX MAXI 52 – 59 mm (section 2)

3 pieces UNIFIX MAXI 70 – 77 mm (section 4)

3 pieces UNIFIX MAXI 82 – 90 mm (section 5)

3 pieces UNIFIX MAXI 90 – 98 mm (section 6)

1 piece UNIFIX MAXI 102 – 112 mm (section 7)

1 piece UNIFIX MAXI 118 – 128 mm (section 8)

Spanner plates: 8 different spanner plates (5 pieces per size)

Pipe outer-Ø (mm-)	Pressure level (bar-) Water	Pressure level (bar-) Gas
48 – 95	16	5
88 – 282	16	4
282 – 359	10	3

Item No.

50.03.30.1 (with NBR seal)

51.03.30.1 (with EPDM seal)

UNIFIX MAXI BOX XL

XL Our greatest repair box. **Five** different sizes of Unifix Maxi repair clamps for the repair of various pipe materials from **90 mm to 669 mm** outside-Ø – ALL IN ONE BOX!

ABOUT OUR MAXI BOX XL

The concept works like this: repair various outside pipe diameters by connecting the various sections contained in the Maxi XL Box.

BOX DIMENSIONS:

800 x 600 x 600 mm

The installation length of the sealing clamps is generally 400 mm.

TIP:

Using the content of two Maxi XL boxes you can also repair pipes up to an outside pipe diameter of 1086 mm. And the box even has enough space to hold twice its content.

Content Maxi Box XL
